1. Introduction

The Mechanistic To-Day Science does not recognise the “Source” of “Life-Energy” in Nature. One of the consequences is that all the attempts to do “Autologous Stem Cells Transplants” have Some Good Results but not so much and many as with my “Treatment” through the: “Informational Regenerative Medicine” that I have conceived and discovered just after my firsts “Autologous Stem Cells straight Transplants” in the Eyes of Patients come from all over the World with different Eye Pathologies at the “Eduardus Krankenhaus-Hospital” in Koln (Colonia) in Germany in February 2008 with the permission and control of the German Ministry of Health.

2. Exposur

My German and Dutch Colleagues in the Koln Hospital were extracting from the Hip the Marrow- Bone that was frozen using chemical-synthetic-pharmaceutical substances killing, (for the non natural provenience), the most of the Stem-Cells that after having thawed them were injected into the different sick-organs. In the Eyes the Transplant of the selected Marrow-Bone extraction was injected under the Eye- ball through the inferior lid with a tiny insulina needle into the posterior fat-pillow of the Eye. My positive results were only the 15% of the Eyes, in treated patients, -for this poor result- I started to make long reflections for reaching a better result, arriving - with “God” that has guided and helped my research - to these definitive conclusions :

- Transplant was not effectively needed because the Stem Cells (S.C.) are in the whole body.
- Real necessity was to make them (S.C.) work effectively and not only for survival functions, as it was at the time of their Creation.
- Understanding the reasons why Stem Cells are no more so efficient is the “Main Problem” So the “Main Problem” is the “most important one”, to regain the “Regenerative Efficiency” of the Stem-Cells, that means also “to restore a more correct

rapport” with “God” that conceived them in the Eden and from “Whom” their life directly depend.

After many consideration I concluded that “to-day environment” is the “real problem”, because we live in a “deteriorate-Planet”, polluted in the Air, Water, Soil, Food and also by poisoned Pharmaceutics.

We need to go back in the time to understand -when- the “Biological Human-Life” has started: we arrive in the “Eden - Time” were and when- the Humans have been conceived in a completely different and -absolutely healthy Natural - Environment-, at these completely different conditions the Human is born with a “Biological-Life-Program” that has naturally reflected those Environmental-Life-Conditions that we must consider as - “Normal-Life-Conditions” - at the Origin of the Biological-Life-Program as has been Conceived by -God-.

The logic conclusion was that the incredible Environment change of today Life Conditions must have deteriorated the Biological-Life-Program of the Stem-Cells (S.C.) inhibiting their Living-Biological-Program and consequently optimal working capabilities and their Mission for a good and healthy-Life.

The Source of Life is -God- and Stem-Cells (S.C.) are -His- Life-Biological-Entities- to realise the Biological Human Existence. So the Main Problem Solution is to drive back the Biological-Enviromental-Conditions of S.C. to their “Normality” to make them work properly and effectively.

We have to work with a Biological-Program that must be reinstalled in “His Original Program Version”, or “as close as possible”, because with my Discoveries I could verify that -God- in His Huge Foresight has given a “certain tolerance” to the operativity of the Program even if not in “perfect Normality Living Condition” as it was in the Eden origin “into which” the Stem-Cells will still do

their good and eventually optimal work. Those are the Reasons for which, -helped by God-, I could conceive my:

“Reprogramming-Informational-Regenerative-Medical-Treatment” reprogramming (= re-installing the Original Program) the Biological-Infos through the combination of Omotossicologic Homeopathic-Natural-Biological-Substances through the Biological-Infos contained into the Natural substances that, having been conceived by -God- do contain the same Original Biological Program.

3. Results & Conclusion

These Substances, wisely used by me, (injected with the same method), could Reactivate, in my private professional practice (starting from beginning of 2009), “autologous totipotent Stem Cells” with a Success rate of 75% of Positive Results instead of the 15% of Success rate of my previous straight Autologous Stem Cells Transplant done in Germany in 2008. The “relative insuccess” of the 25% of the Eyes of my treated patients it is due to the impossibility to drive back the environmental conditions of their Stem Cells sufficiently to reach their “Normality-Range” or into the “Biological-Tolerance” as explained above because too far from the Biological-Environmental-Borders into which the Regeneration of Stem Cells it is still possible. To Reprogram Stem Cells activity it is absolutely necessary as first step to understand from what and where we are poisoned and second step how to reprogram correctly our living, feeding and curing condition to be

detoxicated and how to live correctly and eat and drink and use the right Natural Medicines to avoid further intoxication. I normally spend nearly 2 hours of explanations and information to open the eyes and make evolve the brain of my Patients that are normally shocked for the “unheard new information” that changed most of their convictions and habits about “normality” and what it is Good or Bad for the living of the to-day Humans.

I strongly recommend to read my previously published Scientific works that you can find in my web pages: LombardiEyeClinic.com they will make you better understand what it is in Practice my Treatment, the scientific principles of Biological Infos transmission in the Body through the blood and fluids and the deep Significance of our Body-Intoxication and how to avoid it and cure correctly the Body. For curing your “Soul” and starting or improving your rapport with -God- as I am doing in my personal rapport with -God- if you want or feel the need go in the Church of your Religion but there it is not necessary, I suggest to the readers to look and contemplate every day the -Magnificence of God’Creation- the ”Scenario” in front of them of the Nature, plants, trees, animals and the “more evolved Humans” trying to understand and learn as much as possible every day of their Life, eventually learning and practicing Hatha-Yoga, Pranayama, Raya-Yoga, Zen, Tai-Chi and the Mantra-Meditation for the Cure of Soul and Body, all that will reinforce your Rapport and Communication with your Creator: God - the most Generous - the most merciful and your Life will be more, healthy, happy and evolved.
